Subject: Federal Audit Clearinghouse - Temporary Files Available
Date: September 16, 2015

As Census is in the process of bringing the FAC system back on line by September 30, 2015 (85% chance), the Federal Audit Clearinghouse has developed a temporary solution by posting files to a FTP site available for download containing data from the Form SF-SAC.

You can use these files to identify audit reports you need to access and email requests to the FAC for these audit reports (on a limited basis). The FAC would be able to send the reports to current IMS users through an encrypted email application.

The files are available here: <http://www2.census.gov/pub/outgoing/govs/singleaudit/>
The files are in text format (comma delimited), but can be imported into Excel. The 'read me first.txt' file has some basic information about the files and how to import into Excel. The files are large, so it's probably easier to download the files by individual years instead of all years.

This is a temporary fix until the full FAC system is back up again, hopefully, soon. Please contact the FAC team at the e-mail and phone below for any questions or requests.
